ABOUT ME

I am a passionate and results-oriented Full-stack developer from Kampala International University. Positive to continuous learning, applying my skills, contributing to impactful projects, and grow into a valuable long-term team member. My goal is to gain hands-on experience in a dynamic environment, with the possibility of bringing my expertise to the best use to change the world.

I am an expert in WordPress development and can design, build, and maintain professional websites with great attention to detail. My skills cover custom themes, plugins, responsive design, and WooCommerce integration, ensuring that I can deliver functional, visually appealing, and user-friendly sites.

Beyond WordPress, I have strong skills in HTML, CSS, react, JavaScript, PHP, database management in MySQL PostgreSQL development. I was part of a team that built a hospital management system with features such as patient record management, medication tracking, invoicing, and alerts for medicine expiration. This project sharpened my front-end and back-end development abilities, teamwork, and problem-solving skills.

I am highly adaptable, eager to learn, and committed to producing quality work. I thrive in collaborative environments, embrace challenges, and consistently deliver results that meet or exceed expectations. My ambition is to develop innovative, user-friendly solutions while continuously improving my technical expertise.

WORK EXPERIENCE

Jackie Nanteza

Internship & Graduate | IT Person using ZOHO BOOKS
Kampala , Uganda
2025-05-01 | 2025-07-01

IT Manager – Stressfree and Serene Events

Oversaw all IT operations, ensuring smooth running of event technology and systems.
Designed and maintained the company's WordPress website for event marketing and client communication.
Provided technical support for staff, including troubleshooting hardware, software, and network issues.

Managed digital assets and ensured data security and backups.
Coordinated with vendors to set up sound, lighting, and media systems during events.
Media Volunteer – Gospel Messengers Church
Operated production software including ProPresenter, EasyWorship, and FreeShow for live services.
Managed and uploaded church content to the YouTube channel and other online platforms.
Designed graphics, flyers, and social media posts using Canva.
Assisted in audio-visual setup for worship services and special events.
Collaborated with the media team to ensure high-quality live streaming and recordings.

EDUCATION

KAMPALA INTERNATIONAL UNIVERSITY

Bachelors | Bachelor Of Science in Computer Science

During my studies, I have gained strong technical and problem-solving skills through coursework, projects, and practical experience. My training covers:

Web Development: Expert in WordPress (custom themes, plugins, responsive design, WooCommerce integration), HTML, CSS, JavaScript, and PHP.

Database Management: MySQL and relational database design.

Software Development: Backend and frontend development, version control with Git/GitHub.

Systems Analysis & Design: Understanding of SDLC, requirements gathering, and system modeling.

Project Work: Developed a Hospital Management System with features like patient record management, medication tracking, invoicing, and automated alerts.

IT & Networking: Basic network setup, troubleshooting, and IT support skills.

Media & Production Tools: ProPresenter, EasyWorship, FreeWorship, Canva, and YouTube content management from volunteer work.

SEROMA CHRISTAIN HIGH SCHOOL

Highschool | UCE & UACE

High School Education

Seroma Christian High School – Uganda

Combination: Physics, Chemistry, Mathematics, and ICT (PCM/ICT)

During my time at Seroma High School, I actively balanced academic excellence with leadership and creative roles:

Served as Leader of the School Band and participated in the Music Ministry, developing strong leadership, coordination, and teamwork skills.

Gained valuable experience in communication, public speaking, and audience engagement through music ministry and school events.

Developed writing skills and published my own book, Built To Think, available on PayHip.

Strengthened my organizational and time management abilities by balancing academics, music, and leadership roles.

These experiences nurtured my ability to work with diverse groups, inspire others, and confidently present ideas – skills I continue to apply in my academic and professional journey.
